

AI Applications Classification

Product / Application	AI	ML	DL	Description
ChatGPT	Yes	Yes	Yes	Generates human-like text and assists with writing, coding, and learning.
Google Gemini	Yes	Yes	Yes	Multimodal AI assistant for text, images, and code.
Claude	Yes	Yes	Yes	AI chatbot for reasoning, writing, and analysis.
Siri	Yes	Yes	No	Voice assistant that performs tasks through speech commands.
Alexa	Yes	Yes	No	Smart assistant for voice interaction and home automation.
Google Assistant	Yes	Yes	No	AI assistant for search, reminders, and device control.
Face Unlock (Phone)	Yes	Yes	Yes	Uses facial recognition to unlock devices securely.
Tesla Autopilot	Yes	Yes	Yes	Advanced driver-assistance and navigation system.
Self-Driving Cars	Yes	Yes	Yes	Autonomous vehicles that can drive independently.
Netflix Recommendations	Yes	Yes	No	Suggests movies and shows based on user preferences.
YouTube Recommendations	Yes	Yes	Yes	Recommends videos based on viewing history.
Spotify Recommendations	Yes	Yes	No	Suggests songs and playlists to users.
Amazon Product Recommendations	Yes	Yes	No	Recommends products based on browsing behavior.
Gmail Spam Filter	Yes	Yes	No	Detects and filters spam emails.

Fraud Detection System	Yes	Yes	No	Identifies suspicious financial activities.
Credit Card Fraud Detection	Yes	Yes	No	Detects fraudulent card transactions.
Google Maps Traffic Prediction	Yes	Yes	No	Predicts traffic conditions and travel times.
Uber ETA Prediction	Yes	Yes	No	Estimates ride arrival times accurately.
Weather Prediction Systems	Yes	Yes	Yes	Forecasts weather using historical and real-time data.
Grammarly	Yes	Yes	No	Checks grammar, spelling, and writing quality.
Google Translate	Yes	Yes	Yes	Translates text and speech between languages.
Microsoft Copilot	Yes	Yes	Yes	AI assistant for productivity and office tasks.
GitHub Copilot	Yes	Yes	Yes	Generates code suggestions for developers.
Cursor AI	Yes	Yes	Yes	AI-powered coding assistant and editor.
Replit AI	Yes	Yes	Yes	Helps developers write and understand code.
Midjourney	Yes	Yes	Yes	Creates images from text prompts.
DALL·E	Yes	Yes	Yes	Generates images from natural language descriptions.
Stable Diffusion	Yes	Yes	Yes	Open-source AI image generation model.
Adobe Firefly	Yes	Yes	Yes	Creates AI-generated visual content.
Canva Magic Design	Yes	Yes	No	Automatically generates professional designs.
Runway ML	Yes	Yes	Yes	AI tools for video and image editing.
Synthesia	Yes	Yes	Yes	Creates videos using AI avatars.
ElevenLabs	Yes	Yes	Yes	Produces realistic AI-generated voices.

Suno AI	Yes	Yes	Yes	Creates music and songs from text prompts.
Chess Engine (Stockfish)	Yes	No	No	Uses intelligent algorithms to analyze chess moves.
Calculator	No	No	No	Performs calculations using fixed mathematical rules.
Rule-Based Expert System	Yes	No	No	Uses predefined rules for decision-making.
Smart CCTV Person Detection	Yes	Yes	Yes	Detects and tracks people in surveillance footage.
OCR Text Recognition	Yes	Yes	Yes	Converts images containing text into editable text.
Medical Image Diagnosis	Yes	Yes	Yes	Assists doctors in analyzing medical scans.
Cancer Detection Models	Yes	Yes	Yes	Identifies cancer using medical data and images.
Chatbots (Modern)	Yes	Yes	Yes	Conversational systems that interact with users.
Customer Support Ticket Routing	Yes	Yes	No	Automatically categorizes support requests.
LinkedIn Job Recommendations	Yes	Yes	No	Suggests jobs based on user profiles.
Facebook Feed Ranking	Yes	Yes	Yes	Prioritizes relevant posts in user feeds.
Instagram Explore Page	Yes	Yes	Yes	Recommends personalized content.
Perplexity AI	Yes	Yes	Yes	AI search engine with sourced answers.
NotebookLM	Yes	Yes	Yes	Analyzes, summarizes, and answers from documents.
